## VASQUEZ 66 WEZ TAKES PRESIDENCY

Continued from page 1.

Jaurez to have that position, which you will have without any objection, kindly come with engineer Pradillo, special ambassador to you, who will bring you safe and sound to the national territory.

"Desiring to have the pleasure to see you very soon among us, I am sincerely your friend and wish you all kinds of happiness."

(Signed) "P. Orozco, Jr."

"S.—Our friend, Mr. Contacha, accompanies Mr. Pradillo."

The letter was given to The Herald by Vasquez himself, who asked that it be made public as showing he was proclaimed president of the country.

**Cabinet Members Chosen.**

Two of the members of the provisional cabinet have already been chosen, but so far have not been publicly announced as such. The portfolio of foreign relations was offered to Mr. Pradillo, who refused it and then it was conferred on Gen. Mariano Cantón of Yucatán, who accompanied Vasquez Gomez to Jaurez. As minister of war, Col. Pascual Orozco, Jr., was chosen temporarily, which place will be taken in a few days by Gen. Pascual Orozco, Jr. The rest of the cabinet members are being selected.

There was no demonstration in Jaurez at only the meeting of the new president with the officers of the army and the officials of the town showed any unusual activity.

## MEXICANS AT RAY BECOME MENACING

They Are Buying Arms and Americans Fear Trouble Is Planned.

Ray, Ariz., May 4.—Some excitement prevails among the American residents of Ray, due to the fact that the Mexican population is arming as fast as guns can be procured. Four cases of guns came in Tuesday, consisting of a small Mexican merchant, and were quickly disposed of. There is a divergence of opinion as to the purpose of this unusual importation of the Mexicans and no substantial reasons have been advanced. The general opinion is that they misinterpret the meaning of intervention, and are taking this step to safeguard themselves, like Americans are doing in some parts of Mexico. The element here is strongly pro-Orozco, and he may be recruiting an army in this section to facilitate the capture of Sonora. A great deal of anti-mexican feeling has been caused by the almost certain passage of the Kinney bill, which prohibits anyone from working in the mines who cannot speak English, and local people fear that the Mexicans are planning a reprisal. This locality would be at their mercy, should they assume a menacing attitude in a crisis between the countries, as the Americans are in the minority and Arizona has no state guard in a condition to render relief. Americans are quietly making preparations to protect themselves.

The dynamiting of a house in the Mexican quarter night before last made the situation more intense. The owner of the house is a Madroño sympathizer and it is believed his home was wrecked for that reason. No one was injured.

## MORE THAN 1000 YAQUIS JOIN REBELS

Are Burning Bridges Along the S. P. in Mexico, Below Guaymas.

Nogales, Ariz., May 4.—It is said by Americans who have come out from Sonora that about 1000 Yaquis are in open rebellion against the federal government, led by the Yaqui chief, who has been a disaster with a small following against the government.

The Yaquis have burned bridges along the S. P. route below Guaymas, so that it is difficult and dangerous for even special trains at slow speed.

Some of the Yaquis are out of the Yaqui country, especially women and children, some days five or more in a group, from Sonora and Sinaloa, many of whom are ordered out by the officials for safety.

The Southern Pacific company has now abandoned all train service below Guaymas to Sonora for safety. Empalme and Guaymas and trains run only to Cananea, Naco and Guaymas (Nogales and a daylight run is made).

The company has taken all of the railroad employees from all points below Guaymas to Sonora for safety. From the points withdrawn are: Alamos, San Blas, Navojoa and Esperanza, which now all postal service is cut off.

## CONSULAR AGENT AT ALAMOS RESIGNS

Guaymas, Sonora, Mexico, May 4.—Marion S. McCarthy, American consular agent at Alamos, has resigned his post and gone to the States. A number of Americans have left Alamos and vicinity because of a rumored anti-American demonstration. The majority of the Americans women and children residing in and around Esperanza also departed for the States last week.

The Manhattan Exploration company, operating in the vicinity of Alamos and on the Yaqui river, will close down, it is said.

Mr. Louis Quicker, who has spent the last month with his father in Guaymas, left for home in San Francisco.

Conditions have quieted down in Sonora during the past few days. Trains are running on daylight schedules from Nogales to San Blas with no further Yaqui interruption.

## EFFORT TO OUST FEDERAL JUDGE

(Continued from page 1.)

Involving Judge Archibald's relations with railroads on whose operations it is his duty as a member of the commerce court to pass legal judgment, president Taft instructed attorney general Wickersham to investigate and report to the house judiciary committee.

This committee is charged with the responsibility of investigating such matters with a view to determining whether a prima facie case justifying impeachment proceedings is presented. The house impeaches and the senate is the trial court for a federal official. The judiciary committee is believed, will begin an inquiry at once.

The charges were made last February. The department of justice has made an inquiry, sending a representative to Pennsylvania, where the trials were supposed to have been made. Judge Archibald has not yet been heard in the matter, but he probably will be called early to offer his explanations.

Judge Archibald is from Pennsylvania and was appointed to the commerce court by president Taft Jan. 31, 1911. He is a circuit judge and his tenure on the commerce court will be four years, after which he returns to the third circuit.

Don't Want Probe.

Sam H. Cowan, of Fort Worth, counsel of National Live Stock association, T. W. Tomlinson, of Denver, secretary of association, and others are here to protest against the proposed investigation of the Bureau of Animal Industry. It is claimed that the sensational investigation would injure the foreign trade in American meats.

The committee allowed \$40,000 to fight Chestnut tree blights and \$10,000 for an agricultural exhibit at Leitchfield, Canada.

**Money Appropriated to Aid Probe.**

After listening to caustic criticism of the "money trust" inquiry, the senate yesterday adopted a resolution appropriating \$25,000 for the judiciary committee to prosecute its part of the investigation. Minority leader Mann and representative Hill of Connecticut, denounced the manner in which funds were voted.

**Vote To Be Taken Monday.**

The senate after three remarkable speeches failed again yesterday to reach a vote on the workmen's compensation bill, and when at 5:20 o'clock it took recess until 11:30 o'clock tomorrow morning there was a general impression that the final vote would not be reached until Monday.

**Favor Reduction On Sugar.**

Democratic members of the senate committee on finances practically agreed today to favor a reduction of 23 1/2 percent from the present tariff on sugar and voted to abolish the duties standard and differential on sugar. This will be carried in a provision to be offered as an amendment to the Democratic house free sugar bill.

## ADVERTISING CONTEST PROVES BIG SUCCESS

TODAY The Herald prints the winning advertisements submitted in its Amateur Advertising Contest.

The contest has proved a most successful one. Many advertisers received as high as 50 answers from the amateur Ad. writers, and the answers came from all over the Southwest—Carlsbad, Alamogordo, Globe, Douglas, Blythe, Tucson, Phoenix, Dalhart, Roswell, Pecos, Alpine, Marfa—In fact, from almost every town, city and village in New Mexico, Arizona and west Texas, while some came from Mexico. There was, of course, a large number from El Paso. All professional advertising writers were barred.

The advertisements were mailed by the contestants direct to the advertiser, who selected the winner. The Herald pays each winner \$2.50. The winning advertisements are all published in today's paper on pages 2, 3, 4, 5, 6, 7 and 8, Sport Section. The name of each winner appears with the advertisement.

In several instances, the advertisers received so many good advertisements that they have voluntarily given additional prizes to the writers. The Tuttle Paint company gave three prizes, and several concerns awarded two, especially when two different advertisements appeared equally good.

The contest was a success in every way. It gave the amateur Ad. writers of the Southwest a chance to make some extra money and advance some clever ideas that are of value to the firms advertising. The contest has caused much comment and has resulted in large publicity for the merchants who entered the contest.

## AMERICAN MINERS IN RESENT AN INSULT TO THE FLAG FIGHT WITH MEXICANS

Tucson, Ariz., May 4.—Mexican miners at the Tria Buttes mine caused a riot this morning by raising the Mexican flag in an early celebration of Cinco de Mayo, without putting up an American flag.

American miners, considering the act an open insult to the United States, attacked the Mexicans and hauled down the flag. The Mexicans were badly beaten before they disbanded.

## BUFORD TO PICK UP FOREIGNERS ON COAST

San Francisco, Calif., May 4.—It was learned here today from an unofficial source that the war department has ordered the army transport Buford to take aboard not only Americans on the west coast of Mexico, but British and Spanish subjects as well. This order is said to have been sent by wireless to the Buford from the Mare Island navy yard yesterday.

The text of the message is said to have been as follows:

"Wireless to quartermaster Buford:

"Secretary of war directs that Buford give whatever assistance possible to British and Spanish subjects at ports of call, after American subjects cared for, providing store room aboard ship.

"(Signed) Alshire, quartermaster."
